

FC America Youth Academy

The FC America Academy is our Youth Soccer Recreational League for 5 to 7 year olds, held over the course of seven weeks.

The FC America Youth Academy was started in the spring of 2004, in order to provide an alternative to other recreational programs. Although FC America is also a competitive soccer club with 20 competitive youth teams, we are extremely proud of our recreational program.

The same knowledgeable professional coaches that direct our competitive teams have made a commitment to overseeing the development of the youth players in the Academy. The FC America Youth Academy staff has worked hard to put together a recreational program that suits the need of young children.

Academy coaches do not use tedious drills requiring laps, long lines, and lectures. We recognize young players find these boring and frustrating. The Academy keeps kids excited about the game because they get many touches on the ball while staying in constant motion.

We feel strongly that this program is **the best introduction to the game of soccer** available in our area.

Please check the Announcements Page on our website often for Academy dates, and for all training opportunities offered by FC America.
